

# Managed IAM In Finance

## Optimize the Investments on your Identity Program

### SAVINGS

Managed IAM can squeeze up to 95% more efficiency out of your work processes and prevent breaches costing an average of \$5 MN per incident. (1)

### PRIVLEDGED ACCESS MANAGEMENT

A single viewpoint allows you to monitor and control all identities under your control in real-time, with automatic threat detection locking access to sensitive data.

### COMPLIANCE

A managed IAM service gets you ready to meet compliance for GDPR, PCI DSS, GLBA, SOX, and AML. Prevent fines costing as much as €20 MN or 4% of annual worldwide turnover. (2)

### CUSTOMER EXPERIENCE

An identity-focused UI provides improved experiences for customers, and greater efficiency for employees and partners.

### AUDITING

A unified identity platform optimizes your identity tools and proactively readies you for audits while adhering to constantly changing regulations.
